- Statutory Compliance:** Computed and filed statutory returns & payments (GST, TDS, Income Tax, Advance Tax) while addressing complex client compliance queries to maximize client account retention and satisfaction.
- Audit Readiness:** Executed thorough balance sheet reconciliations and detailed transactional verification to ensure all client ledgers were fully prepped for formal audit scrutiny.

KEY PROJECTS

AP Pulse — AI Invoice & Compliance Automation Engine

Python · PyMuPDF · Tesseract OCR · Claude API · Gemini Flash · Groq · SQL · Streamlit · GitHub

- Identified root cause: finance teams losing 2+ hours daily to manual invoice entry and error-prone GST/TDS calculations.
- Built OCR + LLM pipeline to parse complex PDF/image invoices with AI self-correction fallback (Groq, Gemini Flash).
- Engineered compliance engine validating GSTIN, PAN, MSME/Udyam details and auto-calculating TDS - producing audit-ready output.
- Integrated Google Sheets API to push verified vendor data and journal entries directly into financial records, eliminating manual re-entry.
- **Impact:** Processing time cut from ~2 hours to under 10 minutes (80% faster); duplicate entries eliminated; GST/TDS errors reduced to zero.

Nexus Fin — Personal Finance Management SaaS

Python · Vercel · Claude API · Gemini Flash · Google Sheets

- Researched budgeting apps and identified consistent user gaps: weak long-term planning and cluttered UX.
- Built clean dark-mode interface with multi-step onboarding, real-time liquidity tracking, and target vs actual budget views.
- Developed 10-year wealth projection engine with AI module delivering personalised recommendations by income and spending profile.
